### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard C. Peet on 11-1-04.

The application has been amended as follows: claims 39-63 and 72-80 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The prior art on record does not teach or suggest the two step process of loading the active agents in the hydrogel particles leading to an unexpected increase in the amount loaded. A further search did not result in any reference which is suggestive of the modification of the one step process taught by the reference of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gollamudi S Kishore, Ph.D whose telephone number is
